Prestige 23 Feature Spotlight: *Mass Account Change*

With so many new updates and features it's hard to know where to begin, one of the most popular, most useful, and most-requested updates is within Mass Account Change.

Yes, it's still found via the Admin sub-menu, but this latest iteration – found only in Prestige 23 – includes an option to import files of specific accounts via the new *Select File* button.

Has your client supplied you with a file of specific individuals? No longer must you build your list from scratch before making changes; Prestige 23 can import it!

Questions on how it works? Our helpful 2.5 minute training video clip can be found here:
